COMPANY TIMELINE

ERISO TRADING Solar is the first MEA-based company to manufacture, develop, design, construct, own and operate utility-scale, commercial and industrial photovoltaic plants. That was established in 2007.

what is next?

WHAT IS NEXT?

» GIGA PV FACTORY IN THE U.S.A

Eriso Trading LTD initial investment in the facility is more than 100 million dollar, the new facility is projected to create 150 to 250 jobs , It will produce monocrystalline facial and bifacial modules for commercial and utility-scale projects.

» SUSTAINABLE AGRICULTURE FARMS

Eriso Trading LTD initial investment in this project is more than 20 million dollar

» 2 GW CELL FACTORY

The establishment of a cutting-edge solar cell manufacturing facility that will allow us to locally produce 2 GW of solar panels annually, making us the first company in the Middle East to manufacture solar cells.

We believe that this milestone will transform the renewable energy landscape in the region, driving economic growth, creating jobs, and significantly reducing carbon emissions.

Let's grow together!

WHY OUR PRODUCTS?

1 MOST EXPERIENCED SOLAR COMPANY IN JORDAN

Eriso Trading LTD is a specialized solar company with wide experience in the photovoltaic market. It installed the first grid-connected system in Jordan and the region.

2 AUTOMATED ROBOTIC PRODUCTION LINE

Using state-of-the art automated Japanese and European production lines enables us to supply one of the best photovoltaic modules and steel-mounting structures in the market.

3 BEST QUALITY PRODUCTS

Eriso Trading LTD panels are tested by Electroluminescence -EL- inspection machines, which add value and assurance to our high-quality panels. On the other hand, our steel-mounting structures give the best corrosion-resistance performance, up to 3 times better than the galvanized steel.

4 HIGH EFFICIENCY AND EXTRA YIELD

Eriso Trading LTD panels are produced using grade A HC Mono -PERC—high-efficiency solar cells with positive tolerance power output.

5 SELF HEALING FEATURE

Eriso Trading LTD's steel-mounting structures protect exposed cut edges with a thin zinc-based protection film with magnesium, which prevents corrosion.

6 TECHNICAL SUPPORT AND CUSTOMER SERVICE

We offer outstanding technical support and pre/after sales service to our customers and distributors world wide.

SOME OF OUR LOCAL PROJECTS

Al Husainiyah Project

66 MWp

Used more than 200,000 panels produced by Philadelphia Solar which began generating in 2020, and is the largest Project in jordan.

SOME OF OUR LOCAL PROJECTS

Al Badiya Project

23 MWp

The first solar power plant in MEA region combined with energy storage systems powered by Tesla.

TESLA

Philadelphia Solar

Delivering Clean Energy Solutions

SOME OF OUR LOCAL PROJECTS

Social Security Corporation

18.75 MWp

The largest utility scale wheeling Project in MEA region, integrated for a Non governmental entity.

SOME OF OUR LOCAL PROJECTS

Taybah Metal Industries

14.7 MWp

The largest ZFI Project in MEA region.

SOME OF OUR LOCAL PROJECTS

Abdali Medical Center

8.02 MWp

The largest utility scale wheeling Project in MEA region, integrated for a medical center.
